# KIWOCLEAN® EL 9240 PC

Water-based cleaning concentrate for a residue-free cleaning of soldering frames

HIGH  
PERFORMANCE  
AT LOW COSTS

## Product benefits

- mild odour
- gentle on material
- low foaming (suitable for spraying units)
- optimum water rinsability
- no flash point

# KIWOCLEAN EL 9240 PC

Effective cleaning of solder frames, steam traps and oven parts

Burnt-in flux can be removed effectively without strong odours. KIWOCLEAN EL 9240 MC is a 1:4 concentrate that combines high cleaning power already at room temperature with high loading capacity. The low-foaming formulation convinces by a reduced VOC content. Emissions are reduced in terms of occupational safety and environmental protection.

## Application

KIWOCLEAN EL 9240 MC is specially designed for use in spray, ultrasonic and compressed air assisted cleaning systems, does not form greasy residues and is easily rinsable with water. The average cleaning time required is between 10 and 25 minutes, depending on the contamination and mixture. The recommended mixing ratio is 1:4, however, can be increased or reduced, depending on the contamination.

## Product data

- Colour: colourless, clear
- Boiling range: approx. 100°C
- Density (20 °C): approx. 1,01 /cm<sup>3</sup>
- pH value: approx. 11,0
- Biodegradable
- Storage: 2 years (at 20–25 °C in original container)
- Sales unit: 25 litre can

## KIWOCLEAN EL series

High efficiency –  
SMD cleaning technology

### Perfect SMD cleaning

- SMD stencils
- Misprinted PCBs
- Soldering frames
- Condensate traps
- Soldering equipment
- Stencil undersides
