KIWOCLEAN® EL 9100 MC / EL 9180 MC

Extremely efficient cleaning of SMD solder units—
spray on, wipe off, all done!

LOW-ORDOUR
& HIGHLY-
EFFICIENT

Product benefits

- low-odour and worker friendly formulation
- highly-efficient
- easy handling
- available in a spray bottle with a foam nozzle

Water-based and alkaline maintenance cleaner for manual cleaning of:

- reflow ovens
- wave soldering units
- condensation solder systems
- selective solder systems
- solder frames / carriers

This newly developed and widely used product effectively removes colophony, fluxing agents and degassing residue from printed circuit boards without attacking surfaces.

Spray the cleaners onto the surface and let them react for a short while, then remove with a cleaning tissue.

Cleaning test at KIRRON GmbH & Co KG in Korntal-Münchingen

The excellent product features of KIWOCLEAN EL 9100 MC/9180 MC have been tested and confirmed by leading manufacturers of soldering furnaces. The cleaners are supplied in an original box of 12 x 1-litre spray-bottles and 12 spray nozzles.
